

EVAN TEMPLETON

Managing Director

For over 25 years, Evan Templeton's financial career has focused primarily on the High Yield and Leveraged Loan markets as a Senior Credit Analyst covering the Exploration & Production, Midstream, Oilfield Services and Refining sectors. Most recently, he served as a Managing Director in the Leveraged Credit Trading group at Jefferies, where he led the Strategy Group.

In his sell-side capacity, Templeton was responsible for sourcing investment ideas and managing risk exposure for the firm's proprietary trading efforts across the capital structure. His duties included industry and financial due diligence, evaluating covenant and security structures, marketing investment ideas, and communicating broader industry themes to institutional investors.

In addition, Templeton played key roles in the diligence, structuring and marketing of over \$20 billion of left-lead high yield and leveraged loan transactions. Many of the public and private offerings were at the high-end of the risk spectrum, and their successful execution relied on his sector-, credit- and security-specific expertise and insight.

Prior to Jefferies, Templeton held similar roles at RBC Capital Markets and FleetBoston Robertson Stephens. He graduated from Franklin & Marshall College with a bachelor's degree in history.
